

THE COMPACT.

www.compact-fahren.com

BUILT TO MOVE.

The passion for equestrian sport has been driving us for more than 60 years. With absolute precision and state-of-the-art engineering, we are constantly developing innovative transport solutions focussing on the needs of horse and rider. Also when designing and building our Böckmann Compact Horse Truck – the largest-in-class – we were driven by the wish to provide a vehicle which meets all these demands. The new Compact offers maximum comfort, safety and stability. Read the following pages to learn more about the Compact.

We hope you will enjoy it!

Klaus Böckmann

The largest of its class.

Exercise, training or riding event – the new Compact offers much added versatility. The timeless design and the variable spatial concept not only give you maximum flexibility but also lots of space: With the highest and longest interior and the widest loading ramp without trip hazard, the new Compact is the largest-in-class horse truck. From loading the horses to storing the equipment, it offers maximum comfort for horse and rider.

Your advantages:

- » Much headroom thanks to ample interior height and length in the horse compartment
- » Above-average sized entry portal
- » Light and attractively designed interior
- » Wide loading ramp with side stops and special kick plates
- » Optimum room climate thanks to large roof fan, three sliding side windows and electrical fan
- » Exclusive living quarters – designed according to your preferences (see page 18/19)
- » Loading platform made of anodized aluminium, with insulated roof

A maximum of quality.

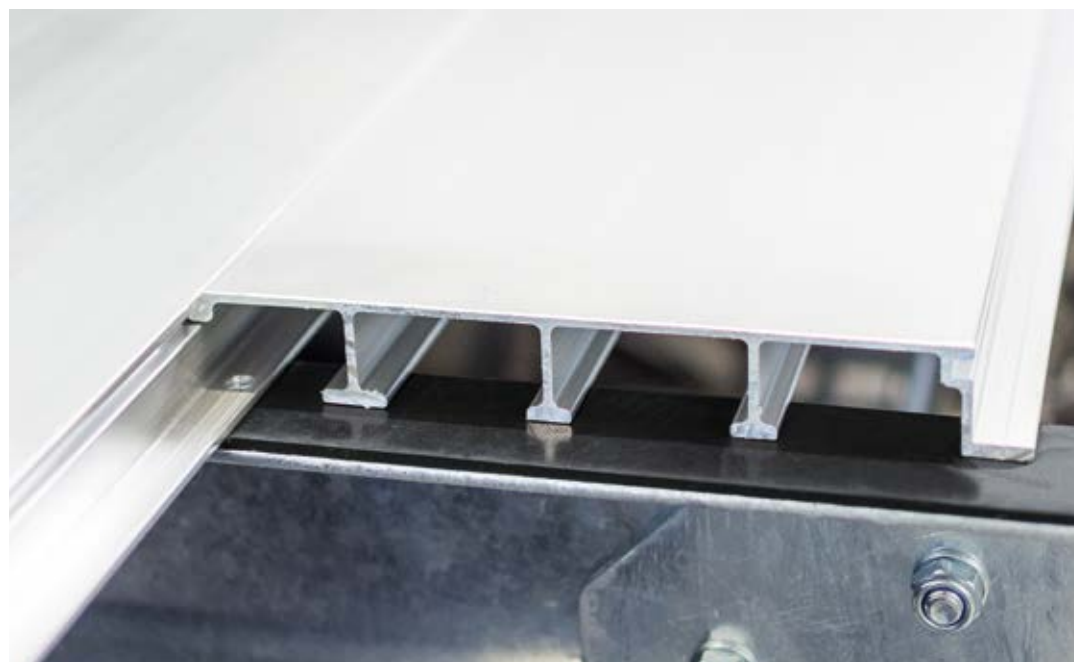

The well-being of your horse is our key concern. Accordingly, when developing our products we very carefully ensure the best possible comfort and safety for horse and driver. The avoidance of sharp edges, the use of assistant systems and a well-conceived standing area for the horses are three of many examples which prove our claim: You are better off with a Böckmann Horse Truck.

Loading platform made of anodized aluminium, with insulated roof (cross-section).

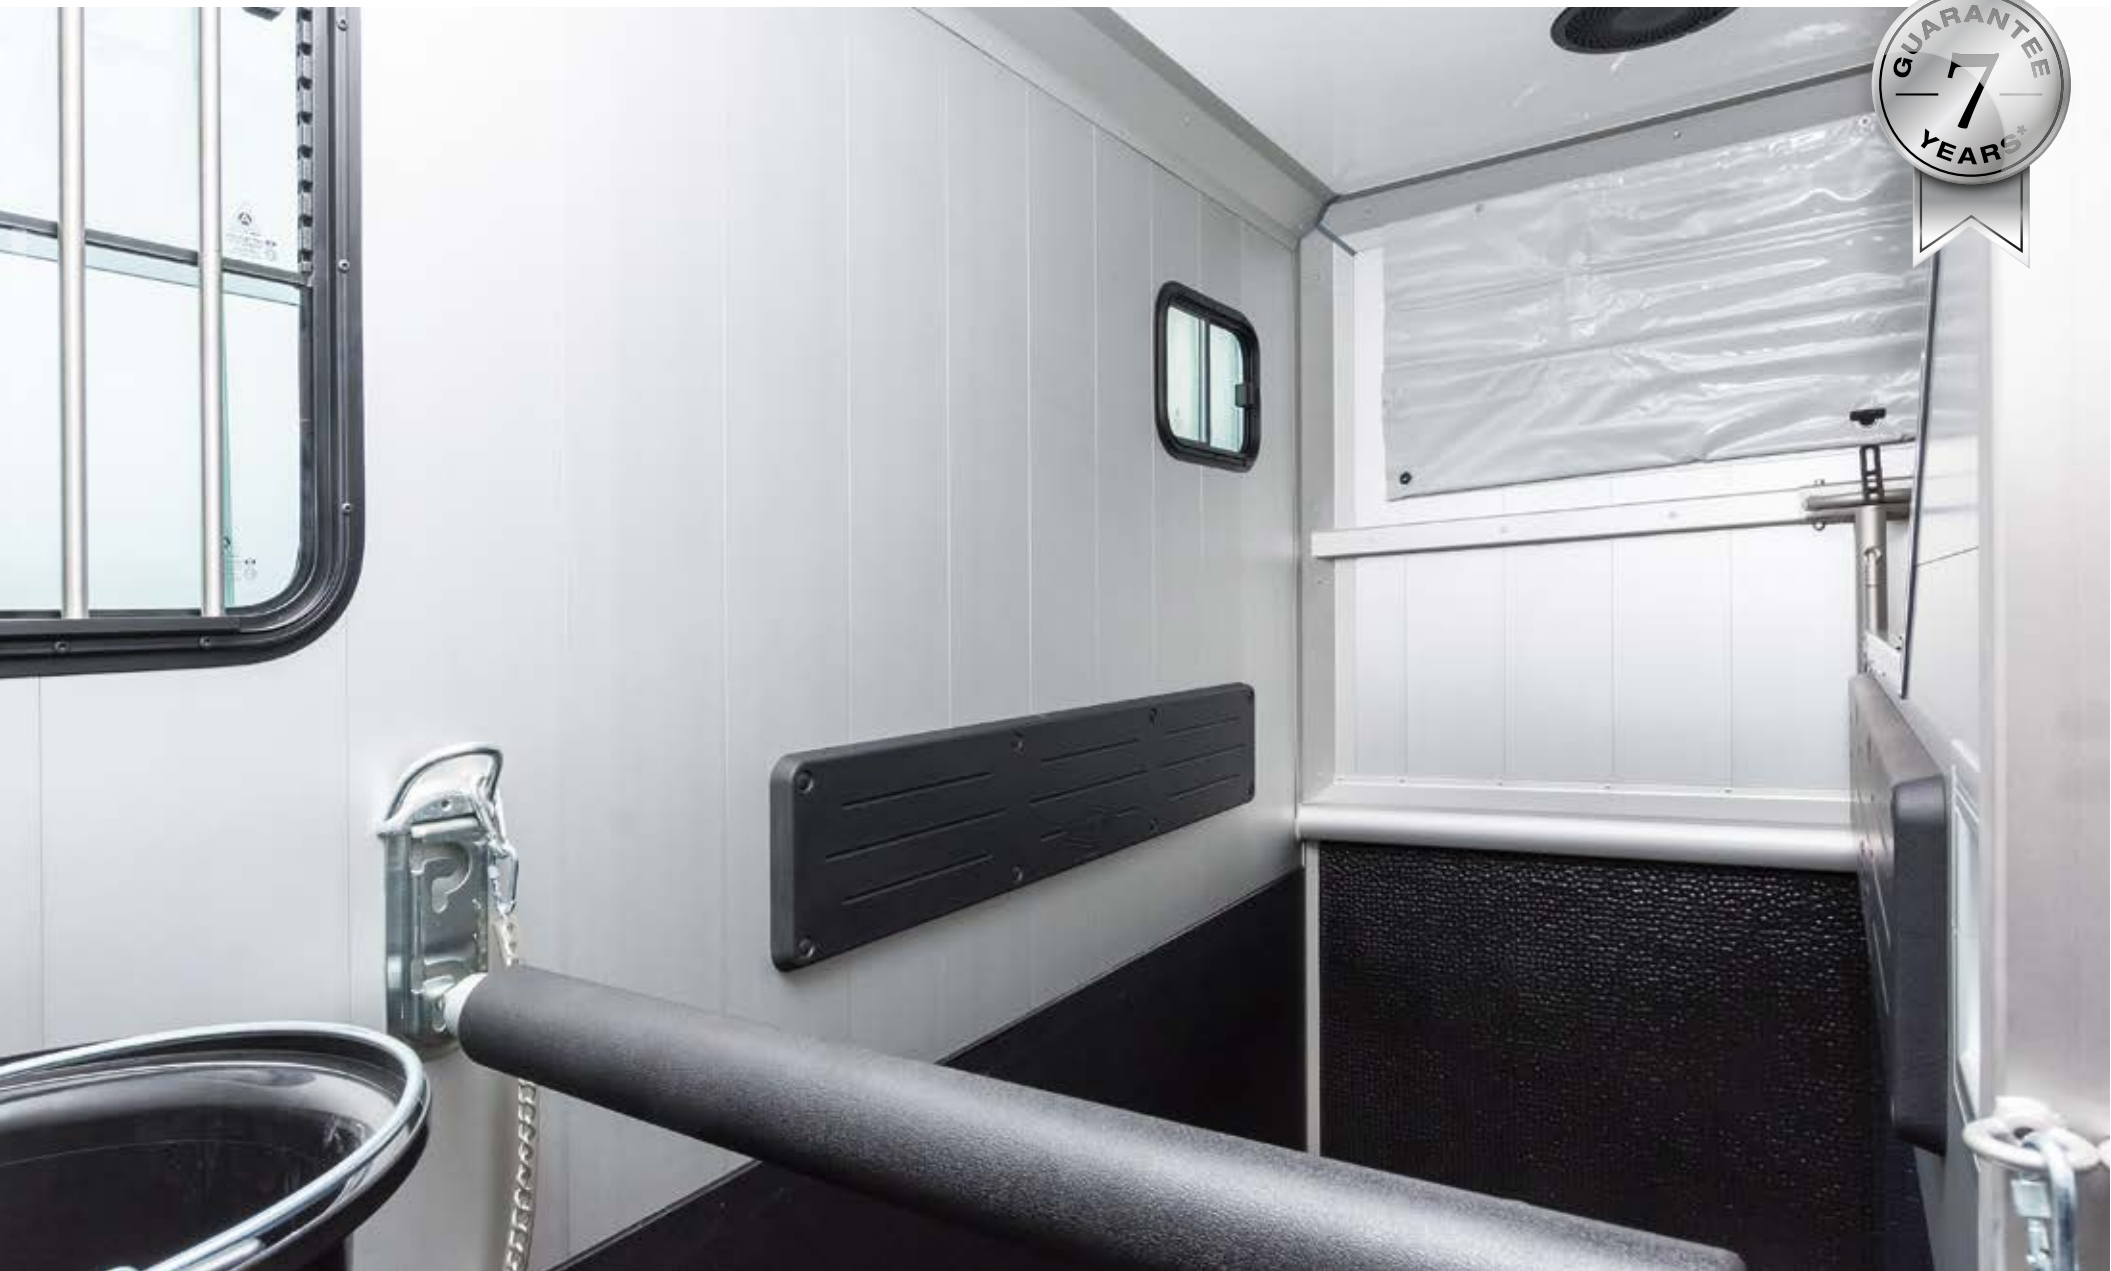

Is up to every challenge. Guaranteed.

High-quality materials, the sturdy loading platform and a rotproof floor (see photo on the right) offer unique stability over the long term! The premium workmanship of our experienced employees guarantees that the new Compact is practically indestructible. You have our word on this – and our 7-years quality warranty*.

Aluminium floor structure of the models Compact L and L Plus.

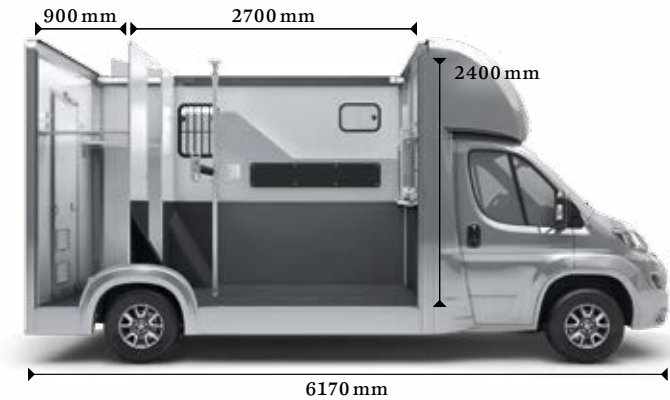

The new design in three sizes.

Large, larger, largest: To meet your individual requirements, we developed the new Compact in three platform lengths with variable interior concept. No matter which size you choose: Safety, comfort and premium quality will come as a standard.

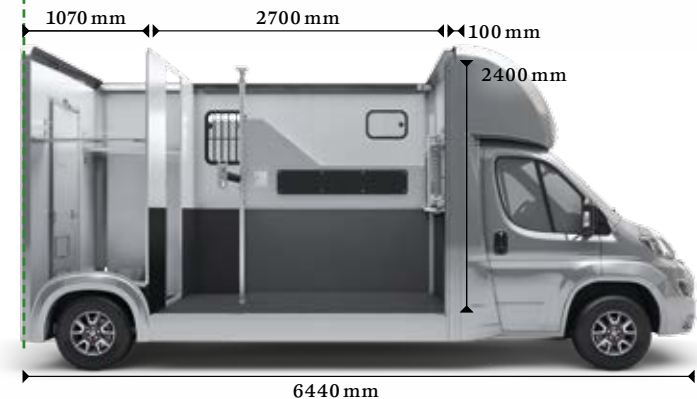

Really great: The Compact models offer much space for your individual needs and leave no wish unfulfilled.

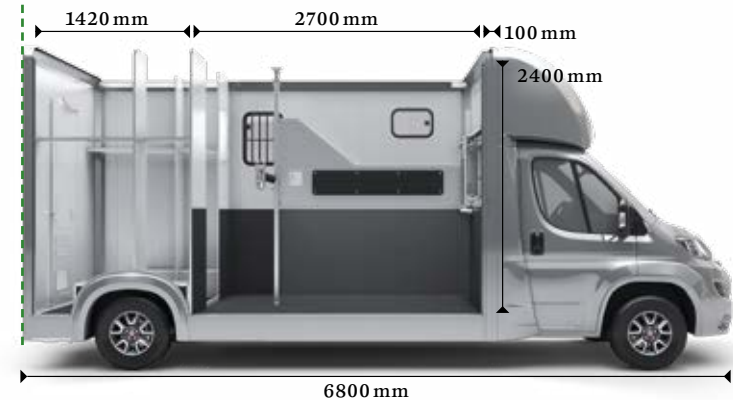

COMPACT

COMPACT **L**
+270 mm

COMPACT **L Plus**
+630 mm

Offers a perfect overview: the driver's cabin.

A driver's cabin should be characterized by comfort, safety and a good overview. The new Compact speaks for itself with its functional details, attractive modern design and sufficient room for passengers. Further benefits: With the optional camera in the horse compartment, you can keep an eye on your horses all the time. The optional rear view camera makes parking much easier. The large windows give you a perfect overview when travelling.

Rear view camera with horse compartment monitoring function.

Driver's cabin

The spacious driver's cabin has sufficient room for three people and guarantees comfortable driving also for long distances. Extra-long mirror arms (standard configuration) ensure optimum all-round vision and stress-free manoeuvring in small spaces.

Driver's cabin **L** + **L PLUS**

With an additional 100 mm behind the seats in the driver's cabin, the models L and L Plus offer even more space than the standard version, for example for storing jackets and equipment.

Driver's cabin **L** + **L PLUS** Tour

The driver's cabins of the L Tour and L Plus Tour accommodate up to five people comfortably: The rear seat with regular three-point safety belt guarantees a safe journey on a luxuriously wide bench. The front passenger seat can optionally be equipped with a swivel function, turning the driver's cabin into a cosy sitting area. Go to page 18 to see all the details.

¹ up to 3 seats and/or various living quarters furniture (cabinet, bed, table, fridge) can be installed as an option

Horse compartment Compact Basic

Horse compartment with fixed divider wall and passage to the tack room

- | | |
|--|---|
| <ul style="list-style-type: none"> 1 Divider wall with swivelling and optionally sliding function for easy loading of the horse 2 Passage from the tack room to the horse compartment, locking door available as an option 3 Stall bar system with additional upholstery and anti-panic system (MSS) | <ul style="list-style-type: none"> 4 Side upholstery on aluminium divider and side wall 5 Rubber floor, bonded and sealed 6 Kick board at side wall 7 Side window as standard configuration |
|--|---|

Illustrations and layouts may differ from the standard configuration. Changes to design and equipment reserved. Weights and dimensions may change as a result of additional equipment.

Horse compartment Compact Sport

Horse compartment with adjustable divider wall and fixed breast wall (optionally with passage door to the tack room)

- | | |
|---|--|
| 1 Divider wall with swivelling and optionally sliding function for easy loading of the horse | 6 Feeding table (optional) |
| 2 Passage door (optional) | 7 Feeding troughs in feeding table, stainless steel (accessories) |
| 3 Breast wall with kick protection | 8 Kick board at side wall |
| 4 Side upholstery on aluminium divider and side wall | 9 Side window as standard configuration |
| 5 Rubber floor, bonded and sealed | |

Illustrations and layouts may differ from the standard configuration. Changes to design and equipment reserved. Weights and dimensions may change as a result of additional equipment.

1 Mare and foal

The entire divider wall is pushed to the side. You need no tools to remove the continuous head divider wall or swivel it out. This makes it easy to give mare and foal a comfortable journey.

2 The space miracle

Move the divider wall and take the 3-door system out to enlarge the space, for example when you wish to transport several bales of straw.

3 Two horses

The high divider wall with 3-door system makes a complete separation of the horses possible. This allows you to transport a stallion and a mare standing free.

4 One horse

Thanks to the high divider wall, it is also possible to transport one horse only.

Plenty of space for saddles, food, etc.

Those who are on the road a lot need much space. To ensure that your equipment is stored safely and readily accessible right where you need it, the new Compact offers practical storage concepts for different requirements. The drawers and storage nets can accommodate all your riding utensils. Saddle holders, clothes and snaffle pegs make it easy to keep things in order.

See a video of the storage spaces.
Scan the code now!

More storage space with the sturdy aluminium mobile saddle boxes on wheels, made of aluminium (M/L/XL) or plastic (S).

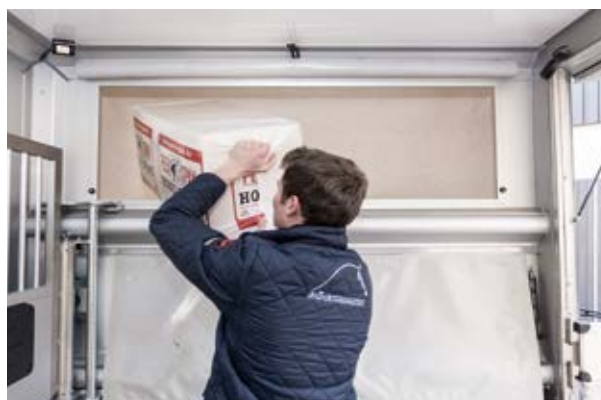

Saddle compartment on the rear side

All in top order: The rear side saddle compartment available as an option has plenty of additional storage space for saddles, gaiters, etc.

Saddle compartment on the front side

Fast and easy access: Optionally, the Compact can also be equipped with a saddle compartment behind the driver's cabin.

Storage space (alcove)

Even more storage space: The easily accessible alcove has sufficient room for bedding, food, etc. The canvas roller blind safely retains the contents while the truck is on the road.

Tack room Basic

Generously dimensioned tack room with open passage to the horse compartment. It is accessed either through the horse compartment or through the spacious door in the rear.

Tack room Stall

Generously dimensioned tack room with swivelling and removable double door between tack room and horse compartment. Access either through the horse compartment or through the spacious door in the rear.

Tack room Sport

Practical tack room, optionally with closed wall to horse compartment and flap above loading ramp, optionally with passage door in breast wall to accommodate a saddle compartment on wheels.

Highly individual to the smallest detail: An apartment on 750 mm: the “Tour”

Relaxing, changing, or sleeping: The 750-mm-apartment “Tour” offers much space for preparing for the tournament. Equip your Compact with the swivelling passenger seat available as an option, the cot in the alcove, or the comfortable bench to make it the retreat of your dreams.

See a video of the living quarters.

Scan the code now!

A true space miracle: The 1400-mm-apartment “Living”.

The same clever design as the “Tour” apartment but larger:
The apartment “Living” convinces with many additional details,
for example a shower, two bed areas, a wardrobe for jackets, a folding
table, and a practical kitchenette with fridge and sink, as well as a TV/sat
system – surprisingly spacious to meet your individual requirements.
Tell us what you expect, and we will make your wishes come true!

*View through the rear living-quarters door into
the opened horse compartment with the alcove which
can be used as additional sleeping accommodation.*

A glamorous look is guaranteed.

Royal blue, elegant black, or rather classic white? You choose!
The Compact is available in many different colours. But no matter which you prefer, you can be sure of one thing:
We'll deliver a true eye-catcher!

*For the individual taste:
We'll be happy to paint the truck in
any other colour of your choice.*

White (standard configuration)

Imperial blue

Golden white-metallic

Iron grey metallic

Aluminium-grey metallic

Burgundy red and silver (special colour)

Dark green metallic (special colour)

Black metallic

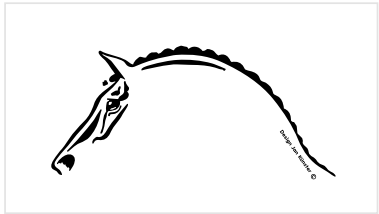

Other colours available on request.

Attracts everybody's eyes.

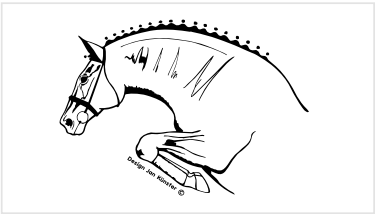

Whether in the large or the small version: A wide choice of different decors, exclusive designs by Jan Künster, make your Compact a true eye-catcher. Best come to the Böckmann Truck Center in Lastrup to see the high quality of the decors with your own eyes. We are looking forward to your visit!

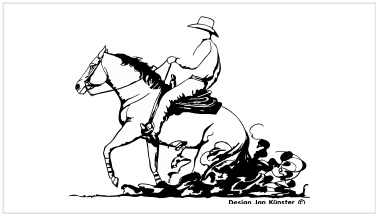

Select from a wide range of decors to customize your Böckmann.
